

## 2013 LOBO/LANCAIR LANDING

### AUCTION ITEM!

Some of you are coming to the 2013 LOBO/Lancair Landing at Greenville, SC to hang out with old friends and make new ones. Some of you are coming to learn the best ways to maintain and fly your Lancair professionally and safely. Some of you are coming to experience the lush, verdant countryside in the foothills of the Appalachian Mountains. Some of you are coming just to look at all the Lancair eye candy flying in from all over the country. And finally, some of you are coming for the goodies and gadgets!

We have great news for the last group, because we will be auctioning a complete single-person flowmeter breathing station kit from our friends at Precise Flight. The Solopack has everything you need to connect a single-occupant to a Precise Flight portable or built-in oxygen system including an A-5 flow meter, Oxyimizer® cannula, face mask, flexible tubing and connectors. Add another breathing station to your existing system, or keep the Solopack as a backup for quick on-the-fly repairs. Either way, you'll breathe easy knowing you have a Precise Flight oxygen system aboard. Don't miss a chance to win this outstanding kit—sign up for the 2013 LOBO/Landing now!
